

ASHMIT AVASH

Bhubaneswar, Odisha ◊ ashmitavash@gmail.com | github.com/Kenshi0905 | +91 82490 89070

OBJECTIVE

Third-year B.Tech student in Electronics and Computer Science at KIIT with interests in AI, software development, and infrastructure. Hands-on experience in machine learning, self-hosted systems, Linux administration, and technical projects.

EDUCATION

B.Tech in Electronics and Computer Science, KIIT University, Bhubaneswar 2024 – Present
CGPA: 8.03

AISSE and AISSCE, DAV Public School, CDA 2010 – 2024
10th Grade: 92.2% | 12th Grade: 81.6%

EXPERIENCE

Summer Intern, National Informatics Centre (NIC), Odisha State Centre May 2026

- Developed ensemble forecasting models for predictive trend analysis, including liquor trend forecasting.
- Implemented and evaluated **SARIMA**, **ARIMA**, **XGBoost**, **CatBoost**, and **Ridge** models.
- Worked with the *eAbkari* platform and studied integration of **databases**, **payment gateways**, **auction**, and **lottery systems**.

OpenAI Campus Lead, OpenAI Student Collective 2026 – Present

- Lead campus AI initiatives and organize workshops, discussions, and community activities promoting **AI literacy**, **responsible adoption**, and **peer learning**.

SKILLS

Programming	Python, Java, C++, C, JavaScript
Web	HTML, CSS
Infrastructure	Docker, VMs, SMB, Git, Linux, System Monitoring
Database	MySQL
Technical Areas	AI, Machine Learning, Data Processing, Real-Time Simulation

PROJECTS

Self-Hosted Home Server & Infrastructure

- Built and managed a self-hosted server using **OpenMediaVault (OMV)** with hands-on experience in **Linux administration**, **storage**, **networking**, **SMB**, and **virtual machines**.
- Deployed Docker services including **Jellyfin**, **Retrom**, and **Immich** for media, gaming, and photo management.
- Configured **Tailscale** for secure remote access and implemented system monitoring for reliable service management.

FactLens

[GitHub Repository](#)

- Developed an **AI-powered fact analysis and verification** workflow with modular processing components.
- Designed scalable project architecture for maintainability and future expansion.

LEADERSHIP & ACTIVITIES

- Vice President**, KIIT Wordsmith Society 2026 – 2027
- Member, Content Team, KIIT Film Society

AWARDS & CERTIFICATIONS

- Completed **FPGA and ASIC Workshop**, NIT Rourkela
- Final-stage participant, **MumbaiHacks**
- Participant, **Bharatiya Antariksh Hackathon**, ISRO
